### Magic shows

#### **Magic Show for ages 3 – 99**

Laugh and experience for yourself:

How a marked bank note disappears only to be found inside a lemon, selected by a member of the audience.

How the magician accompanied by a chosen assistant brings a table to rise and remain suspended above the ground. After seeing this show, Logic will no longer hold the meaning it once had.

The highlight of our magic show is „Rocky“, the racoon. But is he really alive...??? You'll have to decide for yourself.

The magic show can be experienced from as little as a ten minute interval up to as long as an hours full entertainment.

#### **Kids' Magic Show**

Today's children demand fist-class entertainment which speaks their language.

A child selected from the audience takes centre stage and is trained as an apprentice magician.

Various objects appear, change form and disappear, leaving the young spectators totally amused and overwhelmed.

Special care is taken in the selection and presentation of the magic tricks according to the particular age group of the children concerned.

#### **Close-up Sorcery**

„Close up“ sorcery or „Table Hopping“ is suitable for events without stage, where people are seated in smaller groups (restaurants/bars). Enjoy deception at its best. The show takes place amongst the guests themselves. The direct contact and the possibility to investigate closely turn this form of sorcery into a lifetime experience. The magician being within reach allows for total examination of the intricate handwork. Everyday objects such as cards, balls and coins become articles of wonder. One highlight follows the next. Magic before your very eyes. Closer is not possible.

### Workshops

#### Live Circus

This workshop gives to children, guests and customers a chance to learn circus techniques in the fields of juggling, artists and clowns. The visitors will be taught disciplines such as juggling with balls, shawls, clubs and rings. Even after a short period of time they will be able to show great tricks on their own. Further techniques which we train are Devils Sticks, Diabolo, plate turning, clowning, walking on stilts and one-wheel biking. The workshop will be provided with well-known circus pieces as background music.

Thousands of people have already been inspired by this workshop. Your guests or visitors could be the next.

#### Easy Balloon Modelling

Party balloons have unlimited possibilities and applications.

In seconds, animal shapes and fantasy figures can be produced from thin, metre long balloons, which can be distributed amongst the audience. Watch in amazement how these fantasy figures create interest. The children request an animal or comic figure and before their very eyes a work of art is produced. This takes place directly amongst the spectators.

Happy "little" people guaranteed. A guaranteed magnet for the public.

#### Magic Workshop

Your guests can learn professional magic tricks in our magic workshop. The magician will explain the tricks step by step. All participants will be able to show tricks on their own at the end of the seminar. Of course, the requisites for the tricks learnt may be taken home for free. In addition to that the workshop guests will receive an information brochure with important sorcery rules, magic spells and much more.

### Special Programme 1

#### Moderation

Whoever wants to present himself and his company in an attractive and professional way will not be able to do without an exciting moderation of his events. For information or entertainment: In Martin Tschanett and Ralf Rolsn you have found trustworthy and experienced partners for moderations and sorcery of all kinds. That way many topics can be conveyed in a magic way. They will always guide your guests through the programme in a charming and high-class way. The creative two have solutions for your event!

#### Santa Claus

In December of each year you can experience our professional Santa Claus service. We provide an attractive and authentic performance in lavish costumes.

Santa Claus as we all know him from Christmas stories. We emphasize high expectation and quality: In our performance, children are allowed to sing and recite poems. This is perfect as a walk act. We tell Christmas stories or distribute small surprise gifts at your Christmas celebration, your store or your mall. This also is an eye-catcher on the stage for promotion events and film or picture shootings. A guaranteed magnet whom your public will adore.

#### The Butler

The sympathetic, funny, but sometimes a little bit chaotic butler Ralf makes a lot of nonsense at the table and in the waiting line in front of the buffet. As a false butler he causes mere confusion among your guests by adjusting their tie, cleaning their shoes and pointing out the strict house rules to them. 100% comedy! More is not possible... we guarantee you!

### Special Programme 2

#### **The 10-Foot-Man**

A person on stilts is the ideal eye-catcher for your event. There will be a lot of laughing and astonishment. The man on stilts attracts the passers-by. In addition to that he is a favourite motive for photographers thus creating a lasting and exceptional souvenir. If desired, he also comes as a Santa Claus or balloon artist. The special attraction for your event!

#### **Street Performance**

In the busy world in which we live it is a particular challenge to distract passers-by and take them into a world of sorcery. In the street, only the very best performers are good entertainers. Performing for very small or larger groups, depending on the situation. Without any curtain or stage. The spectators who position themselves in direct contact around the artist – a real challenge.

Trust us. Street performances in Germany, Italy, Netherlands, Austria, France, Switzerland and the USA along with awards presented by numerous specialist juries prove our expertise in this area.

#### **Quizshow**

Our well-known Quiz Show promises best entertainment. Candidates and also the audience play an active role in the show. Excitement is at its best right before the finals. Who will win the main prize? Finally it does not matter, for there are no losers in our show. The second-ranked will obtain a consolation prize. Prizes as well as the topic of the show can be tailor-made to the organizer's desires.
